From Education to Human Evolution

Welcome to HEM Gurukul

Welcome to the world of impulsive break throughs, vibrant energies, gravitating ideas & rebellious principles.

Welcome to the magical ballroom of direct energy I direct knowledge where anything modular is backward Awakward and anything plasmatic is real and modern.

Welcome to the sub-system of belief, time tested tradition and its most refined up market utility, where rationality eventually succumbs to super rationality intelligence only struggles to decode wisdom.

Welcome to the program that would lead you to a future, that would inspire you to create a larger than life ideological canvas and paint a picture never finished unto your physical livings; the service which could melt you to acquire a size and shape which makes it bold; which takes you to an unexplored ideological horizon

Welcome to the break away to absolute freedom from norm and definition, which continues to concept and most habitually a philosophy; "Everything Is Within Us"

"Everything Is Within Us"

From Humble Roots to A Visionary Educator: The Inspiring Journey of Our Founder

LATE RESPECTED SHRI BABURAO BAPUJI TAWARE

A Modest Beginning, A Grand Vision

Every transformative movement begins with a big dream. For our esteemed founder, that dream was forged in the rural land of Erandgaon, a small village near Paithan.

Rising from a humble background, he understood that education is the ultimate equalizer. With a fierce determination to make a difference, he relocated to Pune and started his professional journey as a dedicated school teacher.

Overcoming Adversity Through Perseverance

True leadership is tested by hardships and determination. While managing his daily teaching responsibilities, our founder chose to advance his own education, successfully earning by various degrees. This period of his life was defined by immense grit; he balanced rigorous work with demanding studies, all while navigating severe financial constraints. Rather than allowing these economic struggles to deter him, he transformed his personal adversity into a profound lifelong mission. He envisioned a sanctuary of learning where no child would ever be denied an education due to a lack of financial means.

Turning a Dream into Reality

With unwavering dedication, consistency, and a clear philanthropic vision, that dream materialized into a historic reality. He established the Shrisant Goroba Shikshan Sanstha, an educational trust built on the foundational pillar of equal opportunity in the year 1971.

To bring his vision directly to the community, he founded two landmark institutions:

- **Bal Vidya Niketan:** A Marathi-medium primary school dedicated to nurturing young minds during their foundational years.
- **Anand Vidya Niketan:** A high school designed to empower teens and adolescent students and prepare them for a bright, self-reliant future.

Recognizing the critical need for modern, job-ready capabilities, he also established a specialized vocational and technical training branch for the high school students. This forward-thinking additionally ensured that students graduate with the practical, marketable skills necessary to succeed in today's competitive workforce.

A Living Legacy of Selfless Service

Today, the seeds sown by our founder have grown into a vast canopy of hope. To this day, these schools have provided top-tier, quality education to thousands of underprivileged children entirely free of cost. By removing financial barriers, the trust does not just teach; it rescues dreams, elevates families, upgrade the locality and shapes the leaders of tomorrow. As you flip through the pages of life, of this visionary, you will witness the living legacy of a man who believed that education is not a privilege for the few, but a birthright for all.

A Sacred Promise Kept: Fulfilling the Ultimate Dream

As our founder looked toward the changing dynamics of a globalized world, he harboured a grand, final ambition: to establish an affordable English Medium School, that would equip the children to compete on a global stage. Though his earthly journey came to an end before this ultimate milestone was reached, his vision remained vibrant and alive through his wife, Smt. Kiran Baburao Taware.

Smt. Kiran Taware is a passionate, lifelong educator and a respected retired Principal- stepped forward to carry the torch light. Driven by love, duty, and a shared dedication to education, she has fully devoted her life to fulfilling her late husband's unfinished mission.

The establishment of our Hind English Medium School, Gurukool stands as a grand living tribute to our founder's memory, a powerful realization of his ultimate culmination of our founder's forward-thinking vision, seamlessly executed through the unwavering commitment, relentless hard work, profound dedication and exemplary efforts of our beloved Smt. Kiran Baburao Taware.

Today, the Shrisant Goroba Shikshan Sanstha continues to provide top-tier, quality education to thousands of students entirely free of cost through its Marathi Medium schools and affordable English Medium school proving that while a visionary may leave us, a true legacy lives on forever.

Mr. Suresh Kote
President

Shrisant Goroba Shikshan Sanstha

Ms. Kiran Taware
Secretary

Shrisant Goroba Shikshan Sanstha

Dear Parents,

Modern schooling is in the hands of technology. It has made many things so very convenient. Thanks to internet, the best of knowledge is so very well netted. Modern child has this great tool to be knowledgeable in truest sense of the word. But in the aftermath of Google, knowledge by itself has lost all its sheen and glory.

Knowledge ability is no more a point of distinction. So the educational programs are at the crossroad; what to tell who from the common bank of knowledge, common bank of questions and a common bank of answers. Well, look little further and you will appreciate the dire necessity to accept and implement a quotient of change.

Can we think about learning? Learning is not an act of knowing the math table, but it is to understand the construction of the table and know the evolution of values.

Learning is not about knowing the spellings of some words but to understand the whole mechanism of phonetics and the emotional effects of the sounds generated. The meaning after all, lay not in the dictionary but in the effect a certain word sounds to human ears. That is to say, the world of education must consider the application of the know and the knowledge as more critical deliverance and accept that in the end, thinking ability of a child is more fundamental to reason learning and the sophistication it could achieve through learning. Learning offers freedom via the range of vistas that each of the individuality could afford. With this leitmotif, we are now poised to set itself apart on course of a grand human evolution.

I Welcome you to aboard the journey.

*Dr. Preeti Manekar
Principal*

Mission

To enlarge the possibility of human evolution by creating a mentoring environment to cherish a range of thoughts and emotions among children

Vision

Use educational program to create a massive confluence of highly capable human beings scaling even further continually.

Monthly Activities

Month	Activity / Competition
June	Hand Writing/ Essay Writing - English
July	Spelling Competition / Salad / Sandwich Making
August	Rakhi Making, Debate, Thought Development
September	Hand Writing / Essay Writing (Hindi/Marathi)
October	Dance -Solo / Group
November	Diya Decoration & Family Get-together
December	Sports Week
January	Kite Making, Art & Science Exhibition
February	Best Out of Waste/Thanksgiving Card

Annual Events

- Sports Day ● Annual Function ● Science Exhibition
- Social Involvement Project-SIP
- Rallies - Save Girl Child / Say no to Plastic / Traffic Signal Sense / Clean Pune / Healthy Pune
- Art & craft Exhibition ● Interschool competitions
- Set up a market in school for actual buying & selling
 - Cultural Exchange program for 2 days
 - Olympiad Exams ● Competitive Exams
 - Scholarship Exams

Yearly Awards/Medals

- 100% Attendance
- Student of the year Boy / Girls (All-rounder)
- Math Olympiad
- School Karate Championship
- Thought Leader
- Human Leader
- Best Singer
- Best Craft Model
- Most Cultured Boy / Girl
- Most Social Boy / Girl
- Science Olympiad
- Best Dancer - Boy / Girl
- Action Leader
- Moral Leader
- Best Science Model
- Best Orator
- Best Writer Boy / Girl

Admission / Withdrawals

- Applications for admission are accepted in the month of January. Forms are available on web site www.hemgurukoolschool.com
- LC of previous school, birth certificate, Marklist and Aadhar Card is required at the time of admission.
- At the time of admission all applicable fees should be paid as per norms.
- School leaving certificate will not be issued until all dues are fully paid and all library books are returned.
- Parents who wish to withdraw their child at the end of the session must apply for TC/LC in January

BRAIN ACTIVATION AND FORMATTING TECHNIQUES USED BY US

- ❖ Brain Formatting
- ❖ Brain Book
- ❖ Integrated Learning System
- ❖ Experiencing Labs
- ❖ Extra sensitivity with Environment

CHEERS AND CELEBRATIONS

- | | |
|------------------------|---------------------------|
| ❖ Gurupournima | ❖ Teacher's Day |
| ❖ Raksha Bandhan | ❖ Reader's Day |
| ❖ Dahi-Handi | ❖ Holi |
| ❖ Dandia | ❖ Ganesh Pooja |
| ❖ Diwali Party | ❖ Swaccha Bharat Abhiyaan |
| ❖ Christmas | ❖ Kite Festival |
| ❖ Science Exhibition | ❖ Vasantostava |
| ❖ New Year Celebration | ❖ Anand Melawa / Fate |
| ❖ Annual Day | ❖ Paryavaran Din |

EXTRA CURRICULAR ACTIVITIES

- ❖ Bharat Natyam
- ❖ Karate
- ❖ Gardening
- ❖ Chess
- ❖ Speed Ball
- ❖ Athletics
- ❖ Art Exhibition
- ❖ Science Exhibition
- ❖ Foot Ball
- ❖ KHO KHO
- ❖ Cricket

COMPETITIVE EXAMS

- ❑ Science Olympiad
- ❑ Math Olympiad
- ❑ Cyber Olympiad
- ❑ English Olympiad
- ❑ Vedic Maths
- ❑ Drawing Grade Exam

ASSESSMENTS OTHER THAN FORMATIVE & SUMMATIVE

Psychograph :

- ❑ Based on 100 personality behavioral traits-twice a year

Intelligence Profiling :

- ❑ On 12 Multiple Intelligences-twice a year

Brain Mapping :

- ❑ Attention
- ❑ Flexibility
- ❑ Memory
- ❑ Speed &
- ❑ Problem Solving

SOCIAL INVOLVEMENT; INTEGRATED PROJECT

- ❑ Interview of a green grocer
- ❑ Dental check-up
- ❑ Awareness rally on environment
- ❑ Workshops on road safety
- ❑ Temple cleaning
- ❑ Getting 'Donation in Kind'-toys, books, papers etc
- ❑ Collecting money for Help-age-India
- ❑ Factory Visit/study tours
- ❑ Forest cleaning

WHY GURUKOOL PATTERN

- ❖ Gurukool transforms the entire emphasis from Knowledge through Intelligence onto the plane of Wisdom.
- ❖ Gurukool is not just for education it is **The human evolution** program.
- ❖ Teachers work as learning catalysts children develop their own mechanism to learn; they are true Mother Teachers.
- ❖ At Gurukool, teaching is not sufficient; learning is critical.
- ❖ Huge focus on subconscious learning alongwith conscious learning.

LEARNING FACILITIES

- | | |
|--|--|
| ☐ Well lit classrooms | ☐ Computer lab |
| ☐ Science lab | ☐ Dance Room |
| ☐ Library | ☐ Smart Classroom |
| ☐ Open air classrooms | ☐ Garden house |

Levels of Transactions

- **TELLING** is a process of expressing an opinion, advice or a suggestion. Anyone has a choice to tell anything to anyone, irrespective of relationship or acquaintance.
- **TEACHING** is a process of organized expression usually carrying a series of interlinked pieces of information, data, logic or a concept. Teaching proceeds usually with a monologues' attitude and the teacher's priorities are fixed on completion of a thought or a syllabus.
- **TRAINING** is a process of familiarizing the listener with a method or skill, which can be deployed in a specific or a generalized situation.
- **COUNSELING** is a mechanism to affect shift in attitude, thinking, or perception on a specific or a generalized situation. Its objective is either neutralizing or proaction of a certain thought.
- **CONSULTING** involves strong decision-making approach with a tendency to affect a fundamental change in action & approach, desires & destinations, attitudes & beliefs. Consulting has a flavor of being rebellious, non-traditional. It is a high power punch of newer convictions.
- **PHYSICAL CREATION** is an infinitely long process of making an individual go through an entire gamut of events in a way that the objective is met. Creation is essentially a method of setting up and housing a complete process of development in an individual sphere of thought and activities. Creation can work unto a point of achieving an objective in Creation. However, it has a potential to work as an ongoing process.
- **SPATIAL CREATION** does not follow a process. However, intense divergent & tangent non-verbal interactions can take place. The interactions are less interactive and more additive, sometimes escapist. Spatial creativity does not set up a process but a multitude of processes, fully compounded with total loss of identity of a process, that it is a more qualified to suggest, it is an experience

ART & SCIENCE OF PARENTING

Relationships offer one of the most secure platforms for the ideological growth of transacting individual. It is both static & dynamic: the static part offers the physical stability required holding any creation and the dynamic part offers an opportunity to recreate over and again; ensuring that relationship outlive the time & phase barrier. Thus, Parent Child relationship offers enormous scope because of time involvement, quality of involvement, nature of commitments & security factors. A peculiar element of our social learning about parenting however, it is the child who is expected to learn a lot from the parent. The parents often conveniently forget that they themselves could be an important beneficiary of the relationship. Relationships are fundamentally iterative & Parent-Child relationship is no exception to this.

SOME TRUTHS ABOUT CHILD; PARENTS MUST KNOW

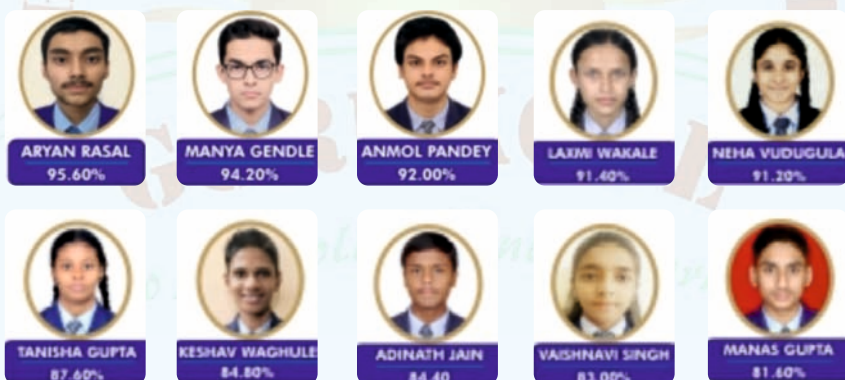

- ❖ Child is generally less based.
- ❖ Child observes you all the time.
- ❖ Child loves to interact & express.
- ❖ Child is possessive & his demands originate in this feeling.
- ❖ Child desires are intense but quite superficial.
- ❖ Child understands objects & not position or power.
- ❖ Child chooses from given options.
- ❖ Child is unlikely to be original.
- ❖ Child moods are much more predictable than adult moods.
- ❖ Child has no value system of his own; however, he adapts it quickly.
- ❖ Dishonesty in a child, stems from the environmental compulsions.
- ❖ Child's intelligence is limited by his lack of experience.
- ❖ Child is mostly reactive & never proactive.
- ❖ In absence of any bias system child is likely to be more creative.
- ❖ Competitiveness child knows not; he lives in his own world.
- ❖ Child blackmails an adult much more than an adult thinks he does.
